TO OUR CUSTOMERS.

We would suggest that your order be made up as soon after the receipt of this catalogue as possible. It will help us to ship promptly, and it will help you by giving you your goods just when you want them. Placing orders late sometimes makes delays unavoidable.

Your order will receive the promptest attention regardless of when they come.

If there is any information you want that is not given in this catalogue, write us about it. We will give you all inquiries our careful attention.

May we have the pleasure of filling your order?

Orders should be written on our ordersheet or on a blank sheet separate from letter, preferable in ink, and, to receive prompt attention, should be directed to the firm and not to individuals. Orders should be accompanied by a remittance in the form of a Post-Office or Express Money Order, Bank Check or Bank Bills.

The prices quoted are net, and include FREE TRANSIT; AS WE PAY POSTAGE OR EXPRESSAGE ANYWHERE IN THE U. S. AND THE DUTY AS WELL. Unless otherwise instructed, we send orders from persons unknown to us C. O. D.

It sometimes happens that certain articles are not ready when the bulk of the goods ordered is shipped. In such cases, rather than hold back the whole order, we send what is ready and keep a memorandum of what is to follow when available. Customers would, therefore, in such cases, do well to await our advice or invoices before writing in regard to items not sent them.

We beg our correspondents to give us on EACH order THE CORRECT NAME AND ADDRESS.

The Royal Eiland Nursery Co gives no warranty; express or implied; as to description; quality; productiveness or any other matter of any bulbs or plants they send out; and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms; they are at once to be returned.

Depth at Which Bulbs Should Be Planted. — Many of our customers are frequently puzzled to know the proper depth and distance apart at which bulbs should be planted. The accompanying diagram, reproduced from *Popular Gardening*, conveys the information much more clearly and briefly than we could describe it. The chart will bear careful study. *Outdoor planting should be done early* in the fall to secure healthy plants, vigorous foliage and beautiful flowers.
